

# **AT&T Bargaining Bulletin #24**

**July 11, 2024**

Negotiations have slowed as your bargaining team strives to secure a contract that truly reflects the best interests of our members. Your team is actively finalizing key items and has emphasized the necessity for improved working conditions in Appendix E and increased wages, surpassing those outlined in previous contracts. We will continue to drive home that message, and mobilization efforts must echo that sentiment.

Please continue to send a strong message to the company, showing you are fully engaged and invested in the bargaining process. Your support is greatly appreciated.

**“Where there is unity, there is always victory.”**

-Publius Syrus
